

# YMI Parent Permission for Google Meet

Updated October 13, 2020

In order to participate in mentoring sessions with YMI this school year, each student must have access to Google Meet. **If your student is under the age of 12, a parent or guardian must help set it up.**

## Action Items:

- If your student already has a gmail account and you would like them to utilize that address for Google Meet, please inform your Campus Coordinator of that email address and download the Google Meet App.
- If your student does not have a gmail account, you can set one up for them or register their school email address with Google by clicking [here](#). You will then need to provide your preferred email address to the Campus Coordinator and download the Google Meet App.

If you have questions please contact your Campus Coordinator.
